The colour counts, whether we choose a bicycle, a car or a household appliance. Paint technicians paint machine parts, vehicles and appliances or apply lettering and logos. They work on various materials such as metal, plastic, wood, glass, paper, leather or textiles. Before the paint is applied, they clean, fill, sand and prime the surface. The paint protects against rust and other external influences.

Your strengths:

- A precise and conscientious way of working
- Positive completion of compulsory schooling
- Manual skills
- Team player

Apprenticeship period: 3 years

Apprentice compensation:

1. Year of apprenticeship: € 1,000 gross per month, 2nd year of apprenticeship: € 1,182.65 gross per month, 3rd year of apprenticeship: € 1,546.13 gross per month, 4th year of apprenticeship: € 2,028.95 gross per month
