Your tasks:

- Establishment of a continuous controlling process in the area of production and inventory management
- Preparation and analysis of data for the evaluation of meaningful key figures
- Creation of various ad hoc evaluations, monitoring of investments and budgets as well as reports for the business/production management
- Ongoing variance analysis with regard to manufacturing costs (and post-calculations)
- Design, Support and further development of controlling tools (dashboards, BI)
- Collaboration on monthly, quarterly and annual financial statements
- Close coordination with specialist departments to assess the feasibility of innovation proposals

Your profile:

- Completed business studies or comparable training with professional experience in a manufacturing environment (customer order-related production an advantage)
- Experience in plant/production controlling in order to evaluate processes and subsequently develop and ensure these with the specialist departments
- Exact, structured way of working
- strong communication skills
- ideas generator with a strong affinity for numbers and the ability to analyse
- confident handling of MS Office and common ERP systems, Power BI knowledge an advantage

You can expect:

- An interesting working environment in a motivated team
- State-of-the-art work equipment
- Numerous special benefits (fruit, doctor, gym allowance, ...)
- Development opportunities in an industrial company with all the benefits of a family business
- Canteen with regional delicacies
- Home office option

A gross salary of 3.800,- Euro is planned. We are happy to overpay depending on your professional experience and qualifications.
